### **Dean's Letter of Endorsement for Graduate School Applicants**

If you are a senior graduating in December or May applying to graduate schools in any field, excluding medical or law school, you are invited to apply for a special Dean's Letter of Endorsement. This letter will serve to augment your application package to a Master's or Ph.D. program by underscoring your achievements during your time at CAS. From scholarly excellence to community service, from research awards to campus leadership, the Dean's Letter of Endorsement will point out the breadth and scope of your college career. While your departmental advisor and mentors will be writing letters that speak to your field of study, the Dean's Letter of Endorsement will speak to the contributions you have made while at the College.

If you are deciding on a "gap year," you are still eligible for a Dean's Letter of Endorsement; you can request one during the application process to graduate school after you've left CAS.

Please fill out this two-page downloadable form, and attach to it your resume or CV. Then turn in the form and resume to the Associate Dean's Office, Room 909, Silver Building.
