

Spanish Placement Guidelines – Summer/Fall 2018 - Spring/Summer 2019

Students with **no previous study of Spanish** should enroll in SPAN-UA 1 Spanish for Beginners I.
 Students with **1 year of High School Spanish** may enroll in SPAN-UA 1 or take a placement test.

All other students must either: **show proof of placement through one of the following: a) the SAT II Placement Test, IB exam, AP test or A Level exam; or b) the NYU Online Placement Exam.** Students who have not taken a placement test and have taken Spanish before will not be allowed to stay in a course. There are no exceptions to this rule.

Students with college Spanish from institutions other than NYU also need to take a placement test if they intend to register for the language here. Transfer credit at or above the Intermediate Two level satisfies the Core graduation requirement (but is not used for placement).

Spanish Speakers: If you are a Spanish (heritage) speaker, you must take a test in the department (not an online placement exam) for appropriate placement into SPAN-UA 11 (Spanish for Spanish Speakers) or SPAN-UA 111 (Advanced Spanish for Spanish Speakers). Completion of either of these courses will fulfill the language requirement for heritage speakers. Please call 212-998-8770 for more information, or write to the Director of the Language Program spanish.dlp@nyu.edu, or the Coordinators of either of the Spanish Speakers courses for further instructions.

NYU In-Person Exemption Exam instructions: <http://cas.nyu.edu/page/placementexams> (Foreign Languages section, parts III and IV).

Please be aware that students cannot take the placement test **more than once every year and a half (18 months)** without the permission of the Director of the Language Program. Call 212-998-8770 or send an email spanish.dlp@nyu.edu for an appointment.

Placement test results are not simple recommendations. **Students must register for the course they have placed into.** Only a Course Coordinator or the Director of the Language Program can override a placement test score. Students registered in the wrong course will be dropped from that class and placed into the appropriate one.

Incoming freshmen should not take NYU Online Placement Exam while they are waiting for AP, IB, A Level, or SAT exam results. If they do, results will only serve as a rough guideline, since the AP, IB or SAT II results will take precedence. However, for incoming freshmen, if the SAT Spanish exam was taken in junior year of high school, students are advised to take the NYU placement exam for a more recent assessment.

If exam results come in and they are not high enough to earn AP (or IB) credit, then students must go ahead and take the NYU Online Placement Exam. For the SAT II, do not take NYU's exam, instead register according to the table above.

Placement test results (as well as AP, SAT II, IB or A level scores) are **valid for 18 months maximum.**

Student placement will be assessed by the instructor the first week of classes. **If inappropriately placed, the student may be asked to switch to a different class.**

If more than 18 months have elapsed since a student took a SPAN-UA course, it can no longer serve as an automatic prerequisite for the next course in the sequence. The student must take or retake the placement examination to determine the correct level of study. This may result in repeating SPAN-UA courses and loss of credit.

Students with college transfer credit from a different institution than NYU have to take the placement test and register for the class they place into. This may result in repeating a level for which they have credit and loss of some of the transfer credit.
