

# RESOURCES FOR THE PRELAW CANDIDATE

The following list of prelaw readings offers prospective law students an overview of selected classics and current titles in certain subjects: law school and legal education, the legal profession, biography, jurisprudence and legal issues, and financing a law school education. Some of these publications list sources for financial aid, but students will need to call or write the individual organizations for the most up-to-date information.

This list should not be construed as the official bibliography of the Law School Admission Council or the American Bar Association; it is beyond the scope of those organizations to provide any sort of definitive catalog of prelaw readings.

Some of these books have already withstood the test of time and are as relevant today as when they were first written and published
